

## STONE DUST

**\$62.50/TON**

Pulverized gray stone used in the construction of walkways or other stable surfaces.

### COVERAGE GUIDELINES:

1 ton covers an area approximately 130 square feet to an average depth of 2 inches.

## CRUSHER RUN

**\$62.50/TON**

Gray crushed stone which has been ground but not sorted for particle size. Can be as big as 3/4" and is generally used to create a base for driveways and pavers.

### COVERAGE GUIDELINES:

1 ton covers an area approximately 120 square feet to an average depth of 2 inches.

## YELLOW SAND

**\$28.50/TON**

### ONLY AVAILABLE IN SALISBURY

A yellow sand that is generally used to create a compact infrastructure under pavers, sidewalks, and any jobs that require a non-shifting floor.

## CONCRETE SAND

**\$25.00/TON**

### ONLY AVAILABLE IN FRANKFORD

A course, washed sand made from crushed rock used for layering under patios/walkways, top dressing lawns and as an aggregate in concrete, asphalt, and mortar mixtures.

## 2" - 4" GOOSE EGGS

**\$80.00/TON**

A mix of 2" to 4" smooth stones that are cream, yellow and beige in color. This material is quarried out of a sandy soil, and during periods of rain may have some sand in it.

# BULK STONE

**EASTERN SHORE**  
FOREST PRODUCTS

## 1/2" PEA GRAVEL

**\$70.00/TON**

A rounded, semi-smooth 1/2" stone that is normally a color mix of white, beige and yellow. This stone can be used as a draining stone, around pools, or for pathways.

### COVERAGE GUIDELINES:

1 ton covers an area approximately 120 square feet to an average depth of 2 inches.

## 1" - 3" RIVER JACKS

**\$112.00/TON**

A mix of 1" to 3" water rounded river stones that are usually gray, white, green, red and brown in color. These stones are ideal for water features among other uses.

### COVERAGE GUIDELINES:

1 ton covers an area approximately 80 square feet to an average depth of 3 inches.

## 1/2" GRAY STONE

**\$62.50/TON**

A crushed stone that is 1/2" in size and gray in color. This stone is excellent for driveways and landscapes.

### COVERAGE GUIDELINES:

1 ton covers an area approximately 150 square feet to an average depth of 2 inches.

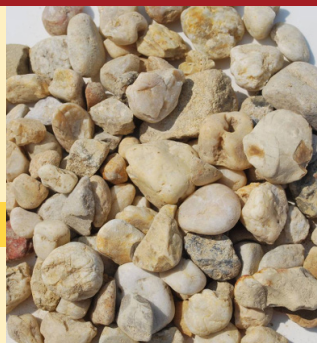

## 3/4" PEA GRAVEL

**\$70.00/TON**

A rounded, semi-smooth 3/4" stone that is normally a color mix of white, beige and yellow. This stone is popular for decorative gardens and landscapes.

### COVERAGE GUIDELINES:

1 ton covers an area approximately 120 square feet to an average depth of 2 inches.

## 3" - 5" RIVER JACKS

**\$112.00/TON**

A mix of 3" to 5" water rounded river stones that are usually gray, white, green, red and brown in color. These stones are ideal for water features among other uses.

### COVERAGE GUIDELINES:

1 ton covers an area approximately 50 square feet to an average depth of 5 inches.

## 3/4" GRAY STONE

**\$62.50/TON**

A crushed stone that is 3/4" in size and gray in color. This stone is used for driveways and drain fields.

### COVERAGE GUIDELINES:

1 ton covers an area approximately 150 square feet to an average depth of 2 inches.

## 1/2" RED STONE

**\$86.25/TON**

A crushed stone that is 1/2" in size and red in color. This stone is a favorite to use on landscapes to add a splash of color.

### COVERAGE GUIDELINES:

1 ton covers an area approximately 140 square feet to an average depth of 2 inches.

## 5" - 8" RIVER JACKS

**\$112.00/TON**

A mix of 5" to 8" water rounded river stones that are usually gray, white, green, red and brown in color. These stones are ideal for water features among other uses.

### COVERAGE GUIDELINES:

1 ton covers an area approximately 140 square feet to an average depth of 2 inches.

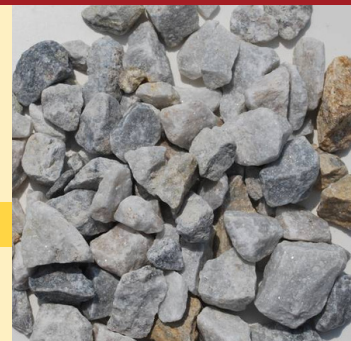

## 3/4" TEXAS WHITE STONE

**\$90.00/TON**

A crushed stone that is 3/4" in size and varying shades of white and gray in color. This stone is used for driveways and landscapes and adds a slight sparkle in the sun.

### COVERAGE GUIDELINES:

1 ton covers an area approximately 120 square feet to an average depth of 2 inches.

## 3/4" RED STONE

**\$86.25/TON**

A crushed stone that is 3/4" in size and red in color. This stone is used in landscapes to add color and texture.
